

## Lawn edger - Park Ranger 2150

### Standard equipment:

- Rotary cutter with two blades** The lawn edger has two blades for optimal performance. While cutting the edge the machine also cultivates the ground for a perfect result.
- Adjustable working depth** The working depth is regulated according to ground conditions, by adjusting the support wheel.
- Reversible blade** Makes it possible to cutting outwards or inwards.
- Adjustable offset** Opens up the possibilities of cultivating soil.

### Technical specifications

| <b>Dimensions</b>                             |      |             |
|---|------|-------------|
| Length  | mm   | 2270        |
| Width   | mm   | 1200-1350   |
| Height with / without cabin                   | mm   | 1935 / 1210 |
| <b>Storage dimensions</b>                     |      |             |
| Length  | mm   | 540         |
| Width   | mm   | 920         |
| Height  | mm   | 500         |
| <b>Weight</b>                                 |      |             |
| Weight (lawn edger)                           | kg   | 53          |
| <b>Performance</b>                            |      |             |
| Ground clearance height under cutter          | mm   | 140         |
| Cutting depth (max.)                          | mm   | 95          |
| Offset  | mm   | 150         |
| Operating speed                               | km/h | 1-2         |
| <b>CE certified according to EU directive</b> |      |             |
